

## Courtyard Option

## Suggested Species

### Feature Tree\*\*

One feature tree can be included in your design, chosen from a range provided by the landscaper.

The above illustrations are examples only. Please feel free to discuss your own design thoughts or alternative options with the landscaper at your on-site meeting.

\*\* Selection of a feature tree may cause soil movement which may have a detrimental effect on the structure of your house. It is your responsibility to ensure that your house footings have been designed by your Builder to tolerate any potential soil movements as a result of planting large feature trees.

### Groundcover species
